

Dam Ho Duy Tan

FRONTEND DEVELOPER

 +84 (93) 494 8541  damhduytan@gmail.com  Da Nang, Viet Nam

OBJECTIVE

Diligent software engineer with 5+ years of experience in development. Quick to adapt to new environments, meticulous, responsible, and always striving for improvement through practice and learning.

As a frontend developer, I focus on writing clean, maintainable, and reusable code while following industry best practices. I build scalable, high-performance interfaces and ensure smooth, reliable user experiences across modern frameworks and environments. I consistently prioritize code quality, robustness, and long-term maintainability in every project.
